1. Internship Feedback

Overall Experience

The Excelrate Data Visualization Associate Internship provided valuable hands-on experience with real-world datasets. I learned the complete workflow from data preparation to dashboard development using PostgreSQL, SQL, Google Sheets, and Looker Studio. Weekly assignments strengthened my technical, analytical, and presentation skills.

What I Learned

- SQL Query Writing
- PostgreSQL Database Management
- Data Cleaning and Validation
- Dashboard Development
- Data Storytelling
- Business Insight Generation
- Professional Presentation Skills
- Team Collaboration

What I Liked

- Practical assignments
- Weekly project-based learning
- Looker Studio dashboards
- SQL & PostgreSQL exposure
- Presentation opportunities

Suggestions for Improvement

- More live mentoring
- Additional SQL practice
- More business dashboard examples
- Individual presentation feedback
- Advanced analytics sessions

Category	Rating
----------	--------

Learning Experience	★★★★★
---------------------	-------

Mentorship	★★★★★
------------	-------

Project Quality	★★★★★
-----------------	-------

Practical Exposure	★★★★★
--------------------	-------

Overall Satisfaction	★★★★★
----------------------	-------

2. 360° Evaluation

Skill	Rating	Comments
SQL	4.5/5	Able to write analytical queries independently.
PostgreSQL	4.5/5	Comfortable with data import and querying.
Data Cleaning	4.5/5	Handled missing and inconsistent data.
Dashboard Development	4.5/5	Built interactive dashboards.
Data Storytelling	4.5/5	Improved presentation skills.
Team Collaboration	5/5	Worked effectively with teammates.
Communication	4.5/5	Confident in presentations.
Problem Solving	4.5/5	Resolved SQL integration issues.

Peer Evaluation

Team Member	Collaboration	Communication	Technical Contribution	Overall
Abhishek KR	Excellent	Excellent	Excellent	5/5
Mohana Chandra	Excellent	Excellent	Excellent	5/5
Jeevan Reddy	Excellent	Excellent	Very Good	4.9/5
Tushar Kashyap	Excellent	Excellent	Very Good	4.9/5

3. Team Meeting Summary

The team conducted a final meeting to review all internship deliverables before submission.

- Reviewed final PPT
- Validated dashboard
- Verified SQL queries
- Practised presentation
- Confirmed reflection video
- Reviewed submission checklist
- Final approval

Member

Responsibility

Mohana Chandra

Data collection, importing datasets into PostgreSQL, checking data quality (missing values, duplicates, data types).

Jeevan Reddy

SQL queries, data validation, joining learner and opportunity datasets, verifying metrics.

Abhishek KR

Dashboard development in Looker Studio, selecting KPIs, creating charts, designing layout, filters, and formatting.

Tushar Kashyap

Documentation, report writing, insights & recommendations, presentation preparation, proofreading, and final submission.

Outcome: The team confirmed that all deliverables were completed and approved for final submission.

4. Conclusion

This internship enhanced my skills in SQL, PostgreSQL, dashboard development, data storytelling, teamwork, and communication. Working with real datasets improved my confidence in solving analytical problems and presenting insights professionally.

Deliverable	Status
Final PPT	Completed
Team Presentation	Completed
Reflection Video	Completed
Internship Feedback	Completed
360° Evaluation	Completed
Final Documentation	Completed
